

Recharge with Quality!

Naps Systems is a globally leading solar electricity systems house. Our range of complete solar energy systems are used to power anything from small consumer loads to large industrial equipment. In the consumer sector, Naps solar power systems are easy, natural and practical solutions for summer cottages, boats and caravans. They are reliable and long-lasting. They utilise the latest technology, which guarantees optimum functioning and pleasant usability. Naps solar power systems cover all your power needs from small 12 Volt systems to large 230 Volt systems. With Naps experience of over 20 years in more than 100 countries you can recharge your batteries with quality!

Naps 50 Standard, product code 30009

- Solar module, 50 W / 12 V
- Charge controller NC5
- Solar power battery 115 Ah / 12 V
- Adjustable wall/roof mounting bracket
- Battery cable 2 x 4 mm², length 3 m, 20 A automatic fuse
- Accessory kit no 1

Naps 80 Medium, product code 30083

- Solar module, 80 W / 12 V
- Charge controller NC15
- Solar power battery 115 Ah / 12 V
- Adjustable wall/roof mounting bracket
- Battery cable 2 x 4 mm², length 3 m, 20 A automatic fuse
- Accessory kit no 1

Naps 125 Super, product code 30110

- Solar module, 125 W / 12 V
- Charge controller NC30
- Two solar power batteries of 115 Ah / 12 V, total 230 Ah / 12 V
- Adjustable wall/roof mounting bracket
- Battery cable 2 x 6 mm², length 3 m, 25 A automatic fuse
- Parallel connection kit for batteries
- Load fuse box, 2 x 16A
- Accessory kit no 1 with 2 x 6 mm² cable, length 50 m

Naps 50 Standard, Naps 80 Medium and Naps 125 Super are the most common standard systems. The Standard kits are available up to 80 Watt size, the Medium kits up to 240 Watt size and the Super kits up to 480 Watt size. For small AC power needs, a 230 Volt inverter can be added to these systems. For larger AC needs, the Naps Big Pack range provides system sizes from 320 Watt up to 1000 Watt. For other needs, Naps can provide complete solar electricity solutions whatever the power requirement. **Contact one of our representatives to find out more about our solar electricity solutions!**
